2019 Aviation Commission Meetings

June 26
7:00pm KPOC

July 2019
No Meeting

August 28
7:00pm KCPM

Support your Airport Association.

Please come on the 3rd Thursday of each month to the old Airport Admin Building meeting room (New CAP HQ) and join the Airport Association for \$10 a year in dues. The next regular Airport Association meeting will be held on **June 20, 2019**

Hangar Inspections – Hangar inspections continue and are ongoing. We will be starting to inspect third party hangars in June including MD hangars and AT series hangars. Additionally, if you have yet to have your County-owned hangar inspected this year, please call the office and schedule an inspection with Ernie. We can accommodate hangar inspections over the weekends as well.

Vandalism/Theft – We have had another incident with wire being stolen from the terminal building parking lot lighting on Airpark Way. While this type of activity typically occurs at night, we want to mention it along with if you observe anything suspicious on airport property to immediately call the operations duty phone. We also encourage everyone to put that number in their cellphone so they have it at a time of need. The operations duty cellphone number is (818) 312-2911.

Unauthorized Vehicle/Equipment Storage and parking at the Whiteman – Reminder, there is no overnight parking/vehicle storage in the hangar rows.

Whiteman Airport Community Open House and Air Fair – September 28, 2019 - Come join us for aircraft rides, displays, and many fun activities for the whole family! If you are interested in volunteering to help with the event, please email eumana@americanairports.net.

Mandatory Insurance Requirements – Hangar and Tiedown agreements require the following minimum aircraft liability insurance for all non-commercial Aircraft:

- \$100,000 per occurrence per person for Bodily Injury
- \$1,000,000 per occurrence for both Single Limit and Property Damage
- **Additional Insured Endorsement** naming American Airports Corporation and County of Los Angeles.

Rules and Regulations: Title 19.04.520 states, “All persons wishing to use an airport, or any portion thereof, for any revenue-producing activity such as, but not limited to, commercial photography, air shows, air charters, flight instruction, sales of equipment, supplies or aircraft, and maintenance or repair of aircraft, or for any consideration of any nature whatsoever, must secure an appropriate permit, license or lease for such activity from the director...”

Airman Certification Standards Updated

May 15, 2019 | General Aviation News Staff | www.generalaviationnews.com

The new Airline Transport Pilot and Type Rating for Airplane Airman Certification Standards (FAA-S-ACS-11) will go into effect this June, and will replace the Airline Transport Pilot and Type Rating for Airplane Practical Test Standards (FAA-S-8081-5F).

New editions of the Airman Certification Standards for Private Pilot Airplane (FAA-S-ACS-6C), Commercial Pilot Airplane (FAA-S-ACS-7B), Instrument Rating Airplane (FAA-S-ACS-8B), and Remote Pilot (FAA-S-ACS-10B) will also be effective in June, and will replace the preceding ACS editions.

The FAA Airman Certification Standards (ACS) document is the guide for students, instructors, and evaluators to understand how to successfully complete their FAA Knowledge Exam and practical test (checkride), ASA officials explain.

The ACS incorporates knowledge and risk management, along with the skill elements to each area of operation and task. The result is a comprehensive presentation that defines the standards for what an applicant needs to know, consider, and do in order to pass the FAA tests and earn a certificate or rating.

Softcover books are \$9.95, while ebooks are \$7.95, except for the remote pilot books, which are \$5.95 for softcover and \$1.99 for ebooks.
