2019 Aviation Commission Meetings

April 24 7:00pm	KWHP
May 29 7:00pm	KEMT
June 26 7:00pm	KPOC

Support your Airport Association.

Please come on the 3rd Thursday of each month to the old Airport Admin Building meeting room (New CAP HQ) and join the Airport Association for \$10 a year in dues. The next regular Airport Association meeting will be held on **April 18, 2019**

Spring is here and hopefully some better flying weather will accompany it!

Hangar Inspection Reminder

We have commenced hangar inspections here at Whiteman for 2019. If you have yet to have your hangar inspection done, please call us at the office during normal business hours and we will come down and we will get it taken care of. As always, the focus on these inspections is safety and lease compliance.

Vandalism at Whiteman Airport

We continue to encounter vandalism here at Whiteman Airport. It has come in many forms including graffiti, damage to airport property and most recently we experienced some vandalism at the terminal's parking lot that included an attempt to steal the copper wiring from the light fixtures. We ask for your assistance in helping us deal with this issue and to report any suspicious vehicles or people whenever observed. Should you see something or someone that looks out of the norm, please call the operations duty phone (the same phone you call for fuel) immediately. I encourage to put this number in your phone under Whiteman Ops so that you have it when needed. The number for the Ops/Duty phone is (818) 312-2911.

Policy on the Non-Aeronautical Use of Airport Hangars

Federal Aviation Administration 14 CFR Chapter 1 [Docket No. FAA 2014-0463]

It is encouraged that all airport tenants inform themselves of what the Federal Aviation Administration (FAA) considers Non-Aeronautical use of an airport hangar.

Download the policy at the link below:

SUPPORT FOR CONTRACT TOWER PROGRAM FUNDING URGED

March 1, 2019 by Dan Namowitz | www.aopa.org

AOPA and eight other aviation organizations have signed a letter urging the chairwoman of the House Appropriations Committee to support a funding level of not less than \$170 million for the Contract Tower Program in the fiscal 2020 appropriations bill. The program enjoys strong bipartisan support and has provided essential, cost-effective air traffic safety services for more than 30 years, with 256 smaller airports in 46 states now participating, said the letter to committee Chairwoman Rep. Nita Lowey (D-N.Y.). A similar letter was sent to other appropriations committee leaders in Congress.

The program's control towers handle 28 percent of all such operations in the United States, but only account for about 14 percent of the FAA's budget for air traffic control tower operations—saving the FAA and taxpayers approximately \$200 million a year, said the letter signed by AOPA President Mark Baker and leaders of the other groups.

In addition to contributing to the functioning of the national air transportation system, the Contract Tower Program plays a key role in disaster relief, law enforcement, emergency medical operations, economic development, and military readiness and security.

"The bottom line is that absent this highly successful government/industry partnership, many local communities and smaller airports would not receive the significant safety benefits of ATC service," the letter said.

In addition to AOPA, the letter was also signed by the U.S. Contract Tower Association, Regional Airline Association, National Business Aviation Association, National Air Transportation Association, Airports Council International-North America, National Association of State Aviation Officials, Air Traffic Control Association, and Cargo Airline Association.
