### 2019 Aviation Commission Meetings

November 27 10:00am	KEMT
December 2019	No Meeting

#### Support your Airport Association.

Please come on the 3rd Thursday of each month to the old Airport Admin Building meeting room (New CAP HQ) and join the Airport Association for \$10 a year in dues. The next regular Airport Association meeting will be held on **November 21, 2019**

# Whiteman Airport

## From the Manager..

Matthew Halls  
mhalls@americanairports.net

**Hello from your new Airport Manager here at Whiteman** – I wanted to take a minute to introduce and tell you a little bit about myself. My name is Matthew Halls and I have just finished my second week here at Whiteman. I have been with American Airports for just over 3 years serving as the Assistant Manager at Fox Field in Lancaster. I have worked in aviation for almost 15 years and obtained my Bachelor of Science in Aeronautics from Embry Riddle. I have been an aviation enthusiast since a young age and am excited about the opportunity to be here at Whiteman. Though I have met quite a few tenants already, if you are in the neighborhood and I haven't yet met you, pop your head in and say hi. Also, you can email me anytime at [mhalls@americanairports.net](mailto:mhalls@americanairports.net) should you want to say hi or need some assistance.

**Hangar Inspections** – While we have already inspected 300+ hangars so far this year, there is still a significant number of County-owned hangars we have yet to inspect. We have recently sent out formal notices in the mail to those individuals who have yet to make their hangar available for inspection so please give us a call and schedule your yearly inspection so we can get it done. Hangar inspections are quick and only take a few minutes.

**Repairs Made to the Self-Serve Island** – I am pleased to report both the display and the credit card reader have been replaced and the self-serve island is back up and running.

**Rules and Regulations** – We continue to encounter unauthorized commercial aeronautical activities here at the Whiteman. Title 19.04.520 states, "All persons wishing to use an airport, or any portion thereof, for any revenue-producing activity such as, but not limited to, commercial photography, air shows, air charters, flight instruction, sales of equipment, supplies or aircraft, and maintenance or repair of aircraft, or for any consideration of any nature whatsoever, must secure an appropriate permit, license or lease for such activity from the Director..."

**Reporting of Airport Irregularities** – We ask for your assistance anytime you see something at the airport that needs attention. A quick call to the office or to the operations duty phone or even an email is fine. You can email Ernie at [eumana@americanairports.net](mailto:eumana@americanairports.net) or myself at [mhalls@americanairports.net](mailto:mhalls@americanairports.net). Your assistance is always appreciated here at Whiteman Airport!

## All ADS-B Rebates Officially Gone

By General Aviation News Staff | October 14, 2019 | [www.generalaviationnews.com](http://www.generalaviationnews.com)

The FAA reports that all 20,000 rebates offered to general aviation aircraft owners to equip their aircraft with ADS-B have been issued and are no longer available.

Aircraft owners who have already reserved their rebate, but not claimed it yet with installation, will be allotted the specified time needed to complete the requirements for the rebate, FAA officials said.

Owners have 90 days from the time of the reservation to install ADS-B. They must fly and validate the ADS-B equipment within 60 days of installation before they can claim the \$500 rebate.

While all the rebates were claimed in May 2019, the FAA reported that some owners were returning the reservations. When the reservations were returned, they would become available to other aircraft owners on a “first-come, first-served basis.”

The FAA first launched the \$500 ADS-B rebate program in September 2016 to encourage owners of fixed-wing, single engine piston aircraft to equip in advance of the Jan. 1, 2020 Automatic Dependent Surveillance-Broadcast Out mandate. FAA officials reiterated that the deadline will not change.

Starting Jan. 1, 2020, Automatic Dependent Surveillance–Broadcast (ADS-B) Out avionics will be required for aircraft flying in certain, controlled air-space.
